A Randomized Phase III Comparison of Standard Dose vs. High Dose Conformal Radiotherapy with Concurrent and Consolidation Carboplatin/Paclitaxel ± Cetuximab in Patients with Stage IIIA/IIIB Non-Small Cell Lung Cancer

Protocol Amendment 8

Protocol amendment 8, dated February 16, 2011, was broadcast on March 4, 2011. The highlight of this amendment was the mandate by CTEP to use Version 4 of the CTCAE for the grading of all adverse events reported through the AdEERS system. CTCAE, Version 4 must be used for reporting starting April 1, 2011.

OPEN Registration

Starting June 3, 2011 at 8:30 am EST, all sites will be required to use the OPEN Registration System to enroll new patients. The RTOG web registration system will no longer be available for this trial. In order to access OPEN you will need: a current CTEP-IAM account and be aligned with an institution on an organization roster (CTSU, Cooperative Group or other network) in RSS. For more information, please visit the CTSU member web site.

Top Enroller

Congratulations to **Robert Timmerman, MD** and the study team at **University of Texas Southwestern Medical School** who is our highest enrolling single site center to date with **16** patients enrolled.

Monthly Accruals

Below please find the accruals through the month of May. 2011 has gotten off to a great start with 85 patients enrolled so far this year. With 453 patients now on study, we only need 47 patients to meet the total accrual for this trial! With your continued support, it is certain that we will complete enrollment before the year's end. Thank you so much for your stellar efforts on this trial!
